Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 9, 11, and 12 are rejected under 35 U.S.C. 102(a) as being anticipated by Yamada et al., US Patent 6,040,092.

Claim 9 is rejected for the reasons given in the office action of 31 July 2002.

With regards to claims 11 and 12, Yamada et al., teach the R values of their inventive cathode materials should be "not more than 0.4". (Column 3, lines 20-33) This is considered to encompass values ranging from 0 to 0.4, which encompasses the R values of applicants' claims.

Claim Rejections - 35 USC § 103

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yamada et al., US Patent 6,040,092 for the reasons given in the office action of 31 July 2002.

Response to Arguments

Applicant's arguments filed 06 February 2003 have been fully considered but they are not persuasive. Applicant asserts the data provided in the Yamada et al. patent, US Patent 6,040,092, and relied upon in making the rejections of claims 9-12 is incorrect. This argument is not found persuasive as the Yamada et al. reference is an issued United States patent and thus presumed valid. The values recited in the

Art Unit: 1745

Yamada et al. embodiment 11 are not obvious typographic errors, and are therefore presumed to be correct.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
